**HOGAN ASSESSMENT SYSTEMS** use the powerful science of personality assessment to help organisations select the right people, develop talented employees, build great leaders, and impact the bottom line. Grounded in more than four decades of validated research, Hogan assessments were the first to scientifically measure personality for business.

This 2-day certification workshop equips you with the skills to interpret and provide feedback using HOGAN Assessments making you eligible to purchase and administer its suite of assessment tools.

**The Hogan Assessment Certification Workshop provides an in-depth understanding of how to use and interpret three Hogan inventories:**

### HOGAN PERSONALITY INVENTORY (HPI)

Evaluates personality characteristics that people need to get along and get ahead (i.e., job fit).

1. Provides information regarding the “bright side” of personality
2. Describes characteristic that appear during social interaction and that facilitate or inhibit job success

### HOGAN DEVELOPMENT SURVEY (HDS)

Identifies factors that impede career success (i.e., management fit).

1. Identifies personality-based performance derailers of interpersonal behavior
2. Describes the dark side of personality, including pattern of behaviors that hinder work productivity

### MOTIVES, VALUES & PREFERENCES INVENTORY (MVPI)

Assesses business drivers and core values for individual fit within a corporate culture (i.e., organizational fit).

1. Reveals a person’s core values, goals and interests
2. Indicates which type of position, job and environment will be most motivating and satisfying for an individual
